PROFILE

Aspiring Data Analyst transitioning from an international career in Logistics and Supply Chain. Skilled in full-cycle data analysis, from data collection and cleaning to visualization and reporting. Leverage strong analytical and problem-solving skills, combined with a detail-oriented and data-driven approach to optimize business processes and enhance decision-making.

EXPERIENCE

Individual Contractor in Conference Affairs Division (Part-time)

United Nations Framework Convention on Climate Change, 2016 – 2024, Bonn

- Provided logistical support to the Meeting Management Team in preparing sessions and workshops, services during sessions and workshops in Bonn, and maintenance of post-session and workshop activities.
- Covered the necessary support required before, during, and after the Conference of Parties (COP) and Subsidiary Bodies (SB).
- Assisted the Conference Affairs Service Team with meeting room assignments and planning.
- Prepared all necessary documents required by United Nations agencies.
- Contributed to the success of the Conference of Parties and Subsidiary Bodies by effectively supporting both participants and the Conference Affairs Service Team.

Driver/Dispatcher Assistant

Akoza ElekTransport GmbH. Amazon Subcontractor, 2021-2022, Euskirchen

- Delivered parcels to Amazon customers.
- Optimized logistics and dispatch operations while ensuring compliance with regulations and company policies.
- Improved delivery routes, enhancing efficiency and reducing costs.
- Reduced fuel costs by 3-5%.

Coach (Part-time)

Bonn International School, 2017-2019, Bonn

- Conducted sports activities for Year 3-4 children and maintained a safe environment by following safety protocols.
- Planned and conducted practice sessions focused on improving children's skills, tactics, and physical fitness.

Paternity Leave

2014-2017

- Took care of my newborn daughter.
- It was one of the best and most challenging experiences I have ever had.

Air Conditioning Specialist/Mechanic

Quality Air Service, 2010-2013, Rockville, USA

- Installed, configured, and tested new air conditioning systems in residential, commercial, and industrial settings.
- Interacted with customers to explain issues, repair work, and maintenance plans.
- Provided recommendations for system improvements or replacements to enhance efficiency.

Logistics Manager

CJSC Talas Gold Mining Company, 2003-2010, Kyrgyzstan

- Controlled all import/export formalities and supplier evaluation and coordination.
- Calculated duties and customs taxes according to the Customs Code and Harmonized System.
- Established customs clearance and logistics operations on site, saving significant financial funds through clear and timely payment of customs duties and taxes.

EDUCATION

Certificate, Data Analyst

Career Foundry School, 2023 - 2024, Germany

Master's Degree, Master of Business Administration

Academy of Management, 2004-2007, Kyrgyzstan

Bachelor's Degree, Customs Specialist

Kyrgyz State University, 1997-2002, Kyrgyzstan

SKILLS

- **Technical:** Excel, SQL, Tableau, Python, GitHub
- **Languages:** English (C1), German (C1), Russian (native), Kyrgyz (native)

PROJECTS

During my studies, I achieved five milestones related to data analysis, forecasting, and prediction. One of the projects involved conducting an analysis and providing recommendations to medical agencies for the winter period. Check the video:
